during next three years. The Government is also implementing a Solar Photo Voltaic (SPV) programme, under which installation of solar lighting systems like solar home systems, street lighting systems and power plants is being supported. The SPV Programme is being implemented in Himachal Pradesh through the State renewable energy development agency HIMURJA. During the last three years, 5,000 solar home lighting systems, 650 street lighting systems and 5,000 solar lanterns, aggregating to 283kWp SPV capacity, were installed under this programme in the State. These systems were installed mostly in remote and unelectrified households/hamlets.

During the current year, the Government has allocated 3,000 solar home systems and 200 solar street lighting systems to HIMURJA for installation in the State under the Solar Photo Voltaic programme. Financial Assistance of Rs. 99.50 lakhs has also been released in advance towards these targets.
